If you agree with these three statements....

1. I don't have time to waste.
2. I don't have money to throw away.
3. I need to get more from my investments.

....You must attend our *Focus Workshop for Private Equity* firms.

Our well-regarded ***Focus Workshop*** delivers accelerated earnings opportunities by focusing on competitive advantage, personal engagement and team cohesion. Now, we've enhanced that value for Private Equity firms by creating a customized workshop for your specific needs.

Whether you're considering acquisitions, expansion strategies or exit options, you'll gain immediate benefits from our time together. Our powerful workshop drives improved, measurable performance by showing how to increase the impact of existing strengths and decrease the resources invested in low-potential initiatives. In our focused sessions, we will present tools to:

- **Identify competitive advantages that can yield sustainable, profitable growth.**
- **Build customer conversion rates, retention and referrals.**
- **Match investments of time and dollars with critical priorities.**
- **Increase team cohesion and productivity.**

Drawing on the unique benefits of our **Quadrant Five** methodology, the workshop maximizes impact by focusing on strengths that already create opportunities for your portfolio companies. We help you focus on the actions that can be implemented now to create measurable benefits in the next few months.

To maximize the benefit for each participant, attendance is limited to 20 people.
